**We wanted to say "Hello."** We're L.E.A.P., a community action agency in Washington County. Our offices are in a county building, which can be confusing to the public. That is part of the reason we changed our name. It is important to us that the community and our potential partners and donors understand who we are and what we do.

**Learning  
Employment  
Assistance  
Partnership**

We exist to create opportunities and resources in the community for the people within our region who live at risk of poverty and the associated obstacles. The support we offer comes in the form of education. You have probably heard of Head Start. We also help with employment, from high school equivalency tests to resume building, job postings, and career advancement tools.

The partnership portion of our organization, representing the final letter in our name, is perhaps the most important to our success. When we forge new alliances, it opens up possibilities for everyone. Our partners discover new ways to participate in the community, our programs get a boost, and the community thrives on the energy of a growing network.

We would love to invite you into the L.E.A.P. energy. Imagine how much farther we can go together.
