

Taking part in a community garden can provide many benefits.  
Please check any/all that apply:

- I learned a new skill-how I can grow food & plants
- I learned I can eat more healthily by growing and eating locally grown produce
- I learned I can save money by growing my own produce
- Having a community garden can be relaxing and fun
- I would do this again ~~next~~ year

Please share any other comments you may have to improve your experience and our garden:

I need to start earlier next year - I did not know how to get in touch w/ anyone this year  
I love the garden. Thank you for the opportunity
